Driven computer science graduate with a robust proficiency in programming and a fervent devotion to technology. Seeking challenging roles in a dynamic and stimulating work environment to apply my expertise and skills.

EDUCATION DETAILS

BACHELORS IN COMPUTER APPLICATION (BCA)

CATALYST COLLEGE (PPU University)

July 2021 - 2024
Grade: FIRST

INTERMEDIATE

L.C.S College Darbhanga (Isc Math)

April 2019 - 2021
Grade: FIRST

MATRICULATION

+2 High School Jaynager

April 2019
Grade: FIRST

TECHNICAL SKILLS

Languages: C, java, javaScript, SQL
Developer Tools: VS Code, GitHub, MySQL, Mongodb
 FrameWork: HTML, CSS, BootStrap React Js, Express Js, Node Js , Mongodb
Softskills: Teamwork, Communication skill, Analytical skills

PROJECTS

College Student Portal : React js, Express Js, MongoDB, BootStrap

Developed a College Student Portal utilizing MEAN stack with JWT token authentication. Empowered college students to access news, information, course materials, and connect withAlumni. Implemented features for secure authentication and facilitated seamless interaction within the college community.

Real-time chat Application

Implemented using React JS, secure user authentication, message encryption, and WebSocket technology for efficient data transfer

Personal portfolio: React js, CSS, Bootstap, Express, mongoDB
